NRO REVIEW COMPLETED

20 February 1963

MEMORANDUM FOR: Director, National Reconnaissance Office

VIA: Deputy Director (Research)

SUBJECT: Clearances for Personnel Associated with the United States Intelligence Board and the Committee on Overhead Reconnaissance

1. In order to make it possible for USIB and COMOR effectively to carry out their responsibilities in the field of requirements for overflight reconnaissance, the following list of officers should receive operational clearances [redacted]. In the preparation of the list the agencies have been requested to include only those billet needs which are directly related to the business of the Board and COMOR in the sense that the officers are required to attend the Board, the COMOR, or the latter's Working Group. I have informed the COMOR members that any billet requirements their agencies may have for other needs are entirely a separate matter and their requests must go to NRO directly.

2. From experience in preparation of the requirements for LANYARD and consideration of the satellite schedule, we know that effective functioning of these groups is not feasible on any other basis than the clearance status indicated.

3. Recommendation: That approval be given for and action taken to establish security certification for the attached list of officers with [redacted]
